

# Isael Terrones

## FULL-STACK DEVELOPER

I am an electronic engineer, currently dedicated to web development, I am passionate about programming and learning new languages.

### TECHNICAL SKILLS

- JavaScript
- Html
- CSS
- Python
- C#
- GitHub
- React
- Node.js
- PostgreSQL
- Material UI
- Tailwind
- Redux
- MATLAB

### SKILLS

- Teamwork
- Work under pressure
- Problem solving
- Organization
- analytical skills

### LANGUAGES

- English: C1
- Spanish : Native

### EDUCATION

- Electronic engineer

Instituto Tecnológico de Morelia, 2020

<https://cedulaprofesional.sep.gob.mx/cedula/>

- Full-Stack developer

Academlo, 2023

<https://certificates.academlo.com/en/verify/52675250572921>

### EXPERIENCE (ACADEMLO PROJECTS)

#### E-Commerce

Making an e-commerce using react and redux.

- Basic CRUD operations were used for access an API.
- I used global states with redux.
- Several routes were used for the different pages .

Project Link: <https://leafy-cranachan-d1e61a.netlify.app/>

#### Pokedex

Creating pokedex using react

- Protected routes were used so the user can access to exclusive information.
- Dynamic components were created for each pokemon.

Project Link: <https://timely-nasturtium-1de6f6.netlify.app/>

#### E-commerce Vanilla

Creating an e-commerce using only Javascript

- The cards were designed dynamically for each product offered by the API
- A loader and a dark-mode were implemented
- A shopping cart was created to add the products from the API.
- Modals were created for each function of the page
